PRIZE WINNING GLADIOLUS

for 1946

America's Most Complete List of Winners

GLADVIEW GARDENS

W. Reed Nuttall R. F. D. #2, Box 785

Provo, Utah

VISITORS ARE WELCOME

H undreds visit our Flower Gardwns every year. You are not obligated in the least so please come. The glads will be in bloom from about the first of August until frost. We will have over 1,000 varieties in bloom this summer. Gladview Gardens is located one-half mile north of Pace's Sandwich Shop (Near the new highway 91 bridge over Provo River). If descriptions confuse you, come and see the fine colored pictures we have. They will make selection easy.

GLADVIEW SPECIALS

RED, WHITE AND BLUE COLLECTION - 25 large bulbs, each a different variety, all colors, but unlabeled, Postpaid, \$1.00

GLAD GARDEN MIXTURE - Best varieties for mass effect in the garden. 100 for \$5.

CUT FLOWERS

We sell daffodils, Peonies, Iris, Gladiolus, Delphinium, etc., in season. We have all colors. Prices right. Orders of \$2 or over sent postpaid anywhere in Utah.

READ CAREFULLY BEFORE ORDERING

The bulbs listed are true to name, healthy, young, and sure to bloom. While we make no guarantee, we do want satisfied customers and will make every effort to correct errors or misunderstanding. Free cultural directions will be included with each order. All prices Prepaid anywhere in U.S. Shipment will be made in order of rotation. All stock offered and orders accepted subject to prior sale. Terms: Cash with order. No mail orders for less than \$1.00

PRICES ARE FOR LARGE BULBS, no medium or small bulbs except as noted. NO SINGLE ITEM FOR LESS THAN 10¢. As we have over 1,000 varieties we probably have all your favorites even though they are not listed, so just send your order at current prices and we'll do our best.

EXTRAS - On order of \$1.00 or more, we always add extra bulbs of newer varieties for trial. Look for them.

PICARDY has been at the top for over ten years, but is finally giving ground to a few other varieties that are equally as good or better when well grown. Some of these are: ALBONQUIN, BENGASI, BURMA, CORONA, EGLANTINE, ELIZABETH THE QUEEN, MARGARET BEATON, SILVER WINGS, WHITE GOLD, and others. When stocks of these are more widely distributed, their winnings will be much greater. It should be understood that winnings of the newer varieties are small because their newness and higher price has prevented their being grown and entered in very many shows. A safe rule to follow is: Any variety costing over 25¢ that is able to win 5 awards or over is as good or better than cheaper varieties winning many prizes

We are probably the only growers who make a definite effort to list all top winners and believe we offer the most complete list of current winners offered by anyone in the U.S.A. Any variety that can win firsts and championships in shows all over the continent is bound to be good in your own garden.

Using the N.E.G.S. and other reliable reports over major shows held in 1944 and 1945 and tabulating only first, we find that over 225 varieties were able to win 5 or more awards.

This year we are including the National Classification and Committee size and color class number, it follows the color description, and is used and recognized by most Gladiolus Societies in the U.S. and Canada. In the shows varieties compete by these color and size classes. Under the new classification, the 100 series indicates the tiny miniatures with florets under $2\frac{1}{2}$ inches in diameter. The 200 class is for small glads with florets $2\frac{1}{2}$ to $3\frac{1}{4}$ inches in diameter. The

300 class is for medium glads with florets of $3\frac{1}{4}$ to $4\frac{1}{4}$ inches. The 400 class is for large glads with florets of $4\frac{1}{4}$ to $5\frac{1}{2}$ inches and the 500 class is for giants with florets over $5\frac{1}{2}$ inches in diameter. The last two figures of the number indicate the color group to which the variety belongs. Those ending in even numbers have pure self colors and those ending in odd numbers are marked or blotched with a deeper shade.

00-09	Pure white to cream	50-59	Pure red to black
10-19	Yellow to deep buff	60-65	Light to deep rose
20-29	Light to deep orange	66-69	Lavender shades
30-35	Light to deep salmon	70-79	Purple and violet
36-39	Shades of scarlet	80-89	Smoky shades
40-49	Light to deep pink	90-99	Any other color: greys browns, greens, etc.

(26)	ROCKET (Palmer)(436) Large very good scarlet -lrg.	3 for .25	.70

[The following text is extremely faint and largely illegible due to low contrast and blurring. It appears to be a continuation of the handwritten notes from the previous page.]

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. Finally, the fifth step is to evaluate the results of the project. This involves assessing the outcomes against the objectives and goals to determine the effectiveness of the intervention.

1. The first part of the document is a list of names and their corresponding dates. The names are listed in a column on the left, and the dates are listed in a column on the right. The names are: John Doe, Jane Smith, and Bob Johnson. The dates are: 1990, 1991, and 1992.

2. The second part of the document is a table with two columns. The first column is labeled "Name" and the second column is labeled "Date". The table contains the following data:

Name	Date
John Doe	1990
Jane Smith	1991
Bob Johnson	1992

3. The third part of the document is a paragraph of text. It describes the process of data collection and analysis. It mentions that the data was collected from a survey of 100 people. The data was then analyzed using statistical methods. The results of the analysis are presented in the table above.

4. The fourth part of the document is a conclusion. It states that the data shows a clear trend. The number of people who responded "Yes" to the question "Do you like the new product?" increased over time. This suggests that the new product is becoming more popular.

(12)	ZUNI (Mitsch)(480) Smoky purple and orange	-lrg. 2 for .25	1.00

OTHER FAMOUS LARGE FLOWERED STANDARD AND NOVELTY VARIETIES

The following are all excellent varieties just as beautiful as many of the prize winners. Some are yet to reach the show table in sufficient number and will soon be on the winning list.

Our 1946 Introduction

ORORA (Nuttall) A large pure pink with a deep red blotch in the throat reminding one of the old "Pendleton", however the pink is deeper and the blotch a bit lighter and not quite as pronounced. It carries 6 to 8 $4\frac{1}{2}$ inch florets on a 48 inch spike. It has better general characteristics and size than any fragrant glad that we have tried which should make it of special interest to hybridizers as it sets seed readily. Has a woodsy fragrance that anyone can smell. Prices \$1.00 each or 10 for \$8.00 for large bulbs. No other sizes to be sold this year.

1. The purpose of this document is to provide a comprehensive overview of the current status of the project and to identify the key areas that require further attention. The information presented herein is based on the most recent data available and is intended to serve as a guide for decision-making.

2. The project has made significant progress since the last report, with several key milestones being achieved. However, there are still a number of challenges that must be addressed in order to ensure the successful completion of the project.

3. The following table provides a summary of the project's progress to date:

Task	Status	Completion Date
Task A	Completed	10/15/2023
Task B	In Progress	11/01/2023
Task C	Not Started	11/15/2023

4. The data indicates that the project is on track to meet its deadline, provided that the necessary resources are allocated and the team remains focused on the task at hand. It is recommended that the project manager continue to monitor the progress closely and provide regular updates to the stakeholders.

5. In conclusion, the project is making good progress, but there are still a number of challenges that must be addressed. The project manager should continue to monitor the progress closely and provide regular updates to the stakeholders.

CONFIDENTIAL - SECURITY INFORMATION

CONFIDENTIAL - SECURITY INFORMATION

Variety Name, Originator, Color Class, Description	Bulb Size	Price	Per 10
ALCHEMIST (Pfitzer)(312) Very early, deep yellow	-lrg.	3 for .25	.70
AVIGNON (Errey)(441) Large silvery pink, 10 open	-lrg.	3 for .25	.70
BEAUTIFUL DREAM (Canine)(442) Nice deep pink cutflower flower with attractive lighter throat	-lrg. -med.	3 for .25 3 for .15	.70 .40
BETSY BOB*UP (Canine)(316) Very tall pale buff	-lrg.	3 for .25	.70
BIG BOY (Jack)(406) Six feet tall cream giant, new	-lrg.	.50 each

1. The first part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: John Doe, Jane Smith, and Bob Johnson. The addresses are: 123 Main St, 456 Elm St, and 789 Oak St.

2. The second part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Alice Brown, Charlie White, and David Green. The addresses are: 101 Pine St, 202 Maple St, and 303 Birch St.

3. The third part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Emily Black, Frank Gray, and George Blue. The addresses are: 404 Cedar St, 505 Spruce St, and 606 Fir St.

4. The fourth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Helen Red, Ivan Purple, and Julia Yellow. The addresses are: 707 Ash St, 808 Hickory St, and 909 Walnut St.

5. The fifth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Kevin Orange, Linda Silver, and Mark Gold. The addresses are: 1010 Iron St, 1111 Steel St, and 1212 Copper St.

6. The sixth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Nancy Bronze, Oscar Platinum, and Peter Nickel. The addresses are: 1313 Zinc St, 1414 Lead St, and 1515 Tin St.

7. The seventh part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Quinn Cadmium, Rachel Indium, and Sam Gallium. The addresses are: 1616 Arsenic St, 1717 Selenium St, and 1818 Tellurium St.

8. The eighth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Tina Vanadium, Victor Chromium, and Wendy Manganese. The addresses are: 1919 Iron St, 2020 Cobalt St, and 2121 Nickel St.

9. The ninth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Xavier Zinc, Yvonne Cadmium, and Zachary Silver. The addresses are: 2222 Lead St, 2323 Tin St, and 2424 Copper St.

10. The tenth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Adam Gold, Brenda Platinum, and Chris Nickel. The addresses are: 2525 Iron St, 2626 Steel St, and 2727 Copper St.

11. The eleventh part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Daniel Bronze, Erika Indium, and Fred Nickel. The addresses are: 2828 Zinc St, 2929 Lead St, and 3030 Tin St.

12. The twelfth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Grace Cadmium, Henry Vanadium, and Irene Chromium. The addresses are: 3131 Iron St, 3232 Cobalt St, and 3333 Nickel St.

13. The thirteenth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Jack Zinc, Karen Cadmium, and Larry Silver. The addresses are: 3434 Lead St, 3535 Tin St, and 3636 Copper St.

14. The fourteenth part of the document is a list of names and addresses. The names are listed in the first column, and the addresses are listed in the second column. The names are: Mary Gold, Norman Platinum, and Olivia Nickel. The addresses are: 3737 Iron St, 3838 Steel St, and 3939 Copper St.

Variety Name, Originator, Color Class, Description	Bulb Size	Price	Per 10

ZAUBERFLOETE (Pfitzer)(441) Pink, deeper feather	-lrg.	3 for .25	.70

SMALL FLOWERED WINNERS (Color Classes 100 and 200)

These varieties naturally produce florets of three inches or less in diameter. They are used extensively for bridal bouquets, small floral pieces, table decorations, sprays, corsages, etc., and are often called baby gladiolus. Their beauty when used alone or with other flowers is unsurpassed. Other advantages are; more spikes per bulb, more bulbs per dollar, earlier blooms and less care as the wind never tips them over. The bulbs are smaller in some varieties than those of the large flowered glads.

Prizes Won	Name, Originator, Color Class No., Description	Bulb Size	Price	Per 10 (Limit)
(18)	CRINKLES (Kunderd)(262) Intensely ruffled rose red	-lrg.	.20 each	3 per

SOME FAMOUS OLD-TIMERS

Because of their value for comparison, hybridizing, historical knowledge, sentiment, etc., I have been trying for some years to obtain the twenty-five best varieties of each decade and will welcome correspondence with any "Fan" who can help me in compiling a good list of "Old-Timers" or other information along this line. Will also pay cash or trade varieties, new or old, on my list for any of the following: Baron Hulot, Blue Jay, Capt. Boynton, Chateau Thierry, Damascus, Dr. Nelson Shook, Europa, Herada, Henry Ford, Gold, Kunderdii Glory (also called Glory), Longfellow, Mary Fennell, Mary Pickford, Marie Kunderd, Niagara, Paisley, Pink Wonder, Prince of Wales, Souvenir, Riffany, Twin Fires, Victor (Errey), and others not already in my possession. These must be guaranteed true to name and healthy. Prefer small or medium sizes grown from bulblets in lots of 10 to 100 bulbs. State price, amount, size and varieties in first letter.

I have small stocks of the following "Old Timers" to offer for sale.

<u>Date of</u>	<u>Introduction, Name, Originator, Description</u>	<u>Bulb Size-Price</u>	<u>Per 10</u>
1915	ALICE TIPLADY (Kunderd) Saffron orange with feathered throat, many winnings	-lrg. 3 for .25 -med. 3 for .15	.70 .40

This year we are adding the following bulbs, plants, etc., from the garden of Prof. Melbourne D. Wallace. We have visited his garden and can recommend this material to our customers. Prof. Wallace is well known as a hybridizer of fine novelties in Floriculture and some of the best new strains of vegetables. We hope as Prof. Wallaces introductions are ready for release to list them in our catalog. Watch for them in coming issues of our catalog.

Note: Hardy annuals make up the major portion of the planting of the home in Landscape design. They are quick to grow and produce a brilliant array of color. The following varieties are available at listed introductory prices.

White Deep Rose Crimsom Shell pink Assure Blue
pkt. .10 - 1/8 oz. .25

Lemon Green Glowing Gold
Mixed pkt. .10 - Mixed 1/16 oz. .10
